Starting in one of the four corners, find a path that visits each of the other three corners as well as passing through the four green intersections. No sharp turns or U-turns are allowed and you must always follow the direction of the arrows. You can go over the same path up to two times.

ANSWER, PAGE 74

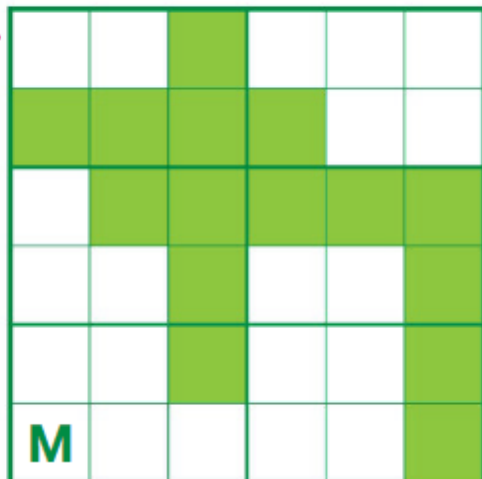

CROSSWORD SUDOKU

BY RODOLFO KURCHAN

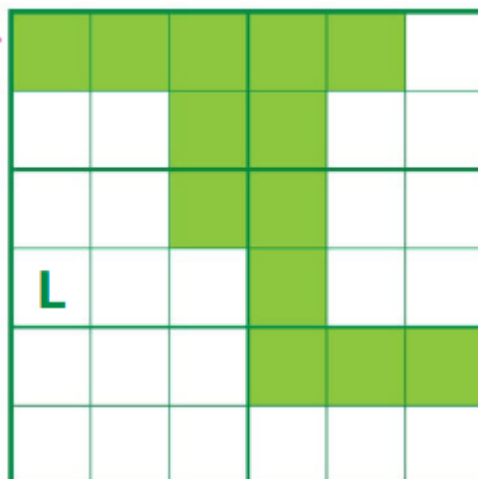

Crossword Sudoku is like traditional sudoku, except that numbers are replaced by letters. To solve each puzzle, place the indicated words in the colored boxes and then solve the sudoku so that there are no repeated letters in any row, column or 2x3 rectangle. In some puzzles, one letter is given in the grid.

ANSWERS, PAGE 80
